

Dunklin County Transit Donation/Contribution Collection Procedure

Dunklin County Transit accepts donations/contributions from our riders for their transportation services. The procedure for this process is that the driver has a locked money box that they carry with them on their route and the riders are provided with an envelope with the suggested donation printed on the front. The riders put their money in the envelope and they drop their envelope in the locked money box which is turned into the office staff at the end of the day.

This procedure was approved by the Dunklin County Transit Advisory Board on February 24, 2015.
